Arrangements to shore up and secure the falling beams have been completed. The Emergency and Rapid Response Services (ERRS) contractor Earthtech, Richmond, Virginia, and it's subcontractor, TNC, mobilized to

site on September 15, 1999, and stabilized the entry to the warehouse, removed the remaining drums, and began arranging for transportation and disposal.

On September 15, 1999, ERRS and TNC mobilized and stabilized the entry to the warehouse. ERRS removed and staged 20 drums from the warehouse after securing the structural integrity of the entryway to the warehouse. Sixteen drums were factory sealed and labeled as belonging to Faygo Beverages. Faygo was contacted. ERRS' chemist sampled and hazard categorized the four unlabeled drums.
